

RE-DWELL ITN Lisbon Workshop

September 22, 23 and 24, 2021

Lisbon, CIUL - Centro de Informação Urbana de Lisboa

Picoas Plaza Núcleo 6-E,1º, R. Viriato 13, 1050-233 Lisboa

The aim of the workshop is to follow up the development of ESR research by fostering networking between individual research projects and by conducting training activities related to the ongoing structured courses (RMT1 and TS1). Invited speakers from professional practice, academia and local government will address topics related to "Design, planning and construction of affordable and sustainable housing" from multiple perspectives. The lectures will be followed by group discussions and complemented by site visits. A roundtable to discuss transdisciplinary research for affordable and sustainable housing will be open to the public via an online session.

Programme

*All local times Lisbon (CET -1)

FIRST DAY

Wednesday, September 22

9:00 to 9:30

Welcome

Leandro Madrazo, Project Coordinator RE-DWELL
